Mohammad Abdullah Al Mamun

Old Academic Building, Dept. of GCE
Bangladesh University of Engineering and Technology
Dhaka - 1000, Bangladesh; Skype: +880-1954-611668

Email: mamun.mme@gmail.com
Portfolio: https://mamunia.github.io/site/
Google Scholar: /citations?user=HzbKITAAAAAJ&hl=en

Education

Bangladesh University of Engineering and Technology (BUET) Dhaka, Bangladesh
M.Sc. in Glass and Ceramic Engineering; CGPA: 3.75/4.0 February 2020
Theis: Role of Oxygen Vacancies on Ferromagnetism in Oxide Dilute Magnetic Semiconductor: TiO_2
B.Sc. in Materials and Metallurgical Engineering; CGPA: 3.54/4.0 (Last 4 semesters CGPA: 3.71/4.0) February 2017
Theis: Hydrothermal Synthesis and Characterization of Pure and Doped $BiVO_4$ NPs

Research Interests

Nano-electronics and Nano-photonics: Device and Materials. Micro and Nano-fabrication of novel device architectures. Electronic transport in Strongly Correlated Materials. First – principle calculations of novel materials.

Awards and Scholarships

- Best Oral Presentation, 2^{nd} Int. Conf. on Physics for Sustainable Development and Technology, 2017, Bangladesh.
- Dean's List Award, Faculty of Engineering for achieving $CGPA > 3.75$ in Junior Year of B.Sc., 2016
- University Merit Scholarship for outstanding academic results in junior year of B.Sc., 2016
- 19^{th} at ACM – ICPC Semifinal (9^{th} as ICPC Ranklist), Bangladesh Site, 2014.
- Honorable Mention, Inter University Programming Contest at Daffodil Uni., Bangladesh, 2014
- Government Merit Scholarship for outstanding academic results in higher secondary certificate examinations, 2012

Effect of ph variation on structural, optical and shape morphology of $bivo_4$ photocatalysts. In *2018 10th International Conference on Electrical and Computer Engineering (ICECE)*, pages 81–84. **IEEE**, 2018.

Research Experience

- Hands on experience in synthesis of multifunctional nanoparticles (TiO_2, CeO_2, $BiFeO_3$, $BiVO_4$) using solid state and different wet chemical routes such as sol-gel, hydrothermal, co-precipitation etc.
- Hands on experience in thin film deposition using spin coater (TiO_2 and CeO_2) and thermal evaporator (ZnSe).
- Material Characterization Analysis: X-Ray Diffraction (XRD), Scanning Electron Microscopy (SEM), Transmission Electron Microscopy (TEM), Selective Area Electron Diffraction (SAED), UV-Visible and Photoluminescence Spectroscopy, X-Ray Photoelectron Spectroscopy (XPS).
- Electrical and Magnetic Characterization Analysis: Dielectric Properties such as resistance, reactance, AC conductivity, AC resistivity; Ferroelectric Properties (P-E hysteresis); Magnetic Properties (M-H hysteresis).

Technical Skills

Programming: C, C++, Python, LaTeX; Scientific Computing Environment: MATLAB, Originpro.
